Data represent expenditures of all productions using OMDC-administered incentives and services. Data do not include television commercial, corporate video, music video, or broadcaster in-house production. Figures include live action and animated production. Data reflect the production expenditures in Ontario during the year and do not always reflect the total budgets of the projects. There may be productions that shot in Ontario that are not included in these totals due to the timing of project applications.

All dollar figures are in millions of Canadian dollars. Dollar figures have not been adjusted for inflation.

¹ The number of television series does not include cycles which began production in the previous year.

² Productions with fewer than six episodes.
